

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the Agency responsible for pesticide regulation. Do not apply this product through any types of irrigation system.

VIROSOFT^{CP4} is a biological insecticide containing *Cydia pomonella* Granulovirus. Viral particles must be ingested by larvae to be effective. Applications should be timed so that early-instar larvae on the surface of the leaf or fruit come in contact with the virus before entering the fruit.

Dilute 8 fl.oz. of VIROSOFT^{CP4} in the amount of water needed to treat 1 hectare (2.47-2.5 acres). For EACH generation, apply diluted VIROSOFT^{CP4} with jet, conventional, or aerial spraying equipment prior to egg hatching and then follow with another application after 15 days. It is recommended to apply this product in late afternoon or on a cloudy day to avoid direct exposure to sunlight.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store unused product in original container away from children and direct sunlight. Store refrigerated at 4°C. Keep open bottle refrigerated. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Triple rinse (or equivalent). Offer for recycling or reconditioning, or by incineration. **PRECAUTION:** Keep away from children, food and animal feedstuffs. Applicators and other handlers must wear: long-sleeved shirt and long pants, waterproof gloves, shoes and socks, protective eyewear, goggles or protective shield, dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C), or a NIOSH approved respirator with any N, P, R, or HE filter. Follow the manufacturer's instructions for cleaning/maintaining PPE. If there are no such instructions furnished, wash PPE clothing with detergent and hot water. Keep and wash PPE separately from other laundry.

VIROSOFT^{CP4}

BIO-Insecticide for Codling moth on apple, pear, plum, prune, and walnut trees

ACTIVE INGREDIENT: *Cydia pomonella* Granulovirus 0.07% (4x10¹³OBs)

INERT INGREDIENT: 99.93%

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals. Avoid contact with skin, eyes, and clothing.

FIRST AID: If on skin or clothing: Take off affected clothing, rinse skin immediately with plenty of water for 15-20 minutes. Call a doctor for treatment advice if needed. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a doctor for treatment advice if needed.

ENVIRONMENTAL HAZARDS: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Keep out of lakes, ponds, or streams. Do not contaminate water by cleaning equipment or disposing of equipment washwaters.

NET CONTENTS: 32 Fl.oz.

USER SAFETY RECOMMENDATIONS: User should (1) wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. (2) Remove clothing immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. (3) Remove PPE immediately after handling this product. Wash the outside of the gloves before removing them. As soon as possible, wash thoroughly and change into clean clothing.

AGRICULTURAL USE REQUIREMENTS: Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to the workers and Restricted Entry Interval. The requirements in this box apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the Restricted Entry Interval (REI) of 4 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water, is: overalls, waterproof gloves, shoes plus socks, and protective eyewear.
