

DIRECTIONS FOR USE: VIROSOFT^{CP4} is a biological insecticide containing *Cydia pomonella* granulovirus. Virus particles must be ingested by larvae to be effective. Applications should be timed so that early-instar larvae on the surface of the leaf or fruit come in contact with the virus before entering the fruit. This product is to be applied by ground application equipment only.

250 ml of VIROSOFT^{CP4} will treat one hectare (2.5 acres). Application should be made in sufficient volume of water to ensure thorough coverage of the leaves and fruits. Make the first application at 210 degree-days (F) after biofix as determined by first consistent moth catch in pheromone traps. Apply diluted VIROSOFT^{CP4} with jet or conventional sprayers prior to egg hatching and thereafter, another 3 times in 2 week intervals for a total of 2 applications per generation. It is recommended that this product be applied in the late afternoon or on a cloudy day to avoid direct exposure to sunlight.

PRECAUTIONS: Keep away from children, food and feedstuffs. Hazards to humans and domestic animals. May cause sensitization. Avoid contact with skin, eyes and clothing.

Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Keep out of lakes, ponds, or streams. Do not contaminate water by cleaning equipment or disposing of equipment washwaters.

Do not enter or allow worker entry into treated areas during the Restricted Entry Interval (REI) of 4 hours. PPE required for early entry to treated areas that is permitted under the Worker Protections Standard and that involves contact with anything that has been treated, such as plants, soil or water, is: coveralls, waterproof gloves, shoes plus socks, and protective eyewear.

Applicators and other handlers must wear Personal Protective Equipment:

- Long-sleeved shirt and long pants
- Waterproof gloves
- Shoes and socks

-Protective eyewear, goggles, or protective face shield

Follow the manufacturer's instructions for cleaning/maintaining PPE. If there are no such instructions furnished, wash PPE clothing detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS:

User should: (1) Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. (2) Remove clothing immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. (3) Remove PPE immediately after handling this product. Wash the outside of the gloves before removing them. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If irritation or sensitization occurs and persists, seek medical attention.

If on skin: Remove contaminated clothing immediately and rinse skin with plenty of water for 15 - 20 minutes. If irritation or sensitization occurs and persists, seek medical attention.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

STORAGE:

Store unused product in original container away from children and direct sunlight. Store refrigerated at 4°C. Keep open bottle refrigerated. Stored product has a viable shelf life of 3 months.

DISPOSAL:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER:
This control product is to be used only in accordance with the directions on this label. It is an offense under the *Pest Control Products Act* to use a control product under unsafe conditions.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
